Messina's is Passionate about Perfection and committed to Excellence. Consistency in quality, attention to detail, continued customer satisfaction has proven to be the key elements of success.

## The Venue

The Terminal located at Lakefront Airport is a New Orleans Tradition, dating back to the 1930's. At the time of its grand opening it was considered an architectural masterpiece. Built by the same architect that designed the Louisiana State Capital building, it was the first major airport in the region, and served proudly as a general aviation airport to this day. Inside the terminal building, travelers would find an Art Deco wonderland, featuring murals by artist Xavier Gonzalez, friezes by Enrique R. Alferez and an array of stone wall and floor treatments.

**Messina's at the Terminal offers four unique Event Rooms: The Atrium, Observation Deck, Huey P Long and the Walnut Room.**

The Atrium

The Atrium

# The Terminal: A New Orleans Tradition
